INTRODUCTION

*Catalogue of Ontario Government
Publications*

This Catalogue of Ontario Government Publications is based on material supplied by the various departments and indicates the variety of information available to the people of Ontario.

It is a compilation of all the official publications, public documents and literature available to the Queen's Printer and Publisher.

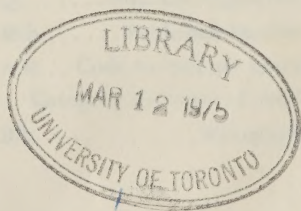

It also lists a few publications which have a limited distribution. These are labelled in the catalogue as "Restricted Distribution."

EXPLANATION OF CATALOGUE LIST

This Catalogue is divided into two sections — Index and Classified.

- (1) Index — which lists publications and subject matter in alphabetical order and indicating the catalogue number.
- (2) Classified — which records the publications under the Department name and an effort has been made to give an indication as to contents of the publication. The catalogue numbers in this section have been listed where possible by the Branch producing the publication.

Changes and additions to the listings shown in this Catalogue will be published from time to time.
